

"The lecture hall was packed and everyone sat in a stunned kind of silence."

Talks and intensive weekend workshop by Nicole 'Stoneleigh' Foss:

Financial, Economic and energetic crises in a large context

Lectures: Tuesday 08/03 in Ceske Budejovice, Wednesday 09/03 in Brno and 10/03 in Olomouc.

Weekend workshop: 11,12, 13/03 at PermaLot Centre of Natural Building, Bouzov Podoli

We strongly recommend you to go to this speech! It's a unique chance to hear what seems to be a sweet grandmother, (who happen to be one of the worlds most honest (and wisest) financial analysts) tell in normal words what's really happening, how it's affecting your life; and what you can do about it!

See <http://www.energybulletin.cz/> for details. - Sorry; no translation; English only.

As a last minute arrangement we are proud to make it possible for 10 participants to join us in PermaLot for a weekend workshop with Nicole and her fellow editor, Ilargi. The exact program is still under development, but it will include talks about the present situation, and significantly the likely-hood of future collapse. This will lead to discussions and afterwards group work, making transition plans for your own life style/situation based on the sustainable design principles of Permaculture.

Comfortable accommodation is possible at nearby pensions/hotels, or free of charge on the floor in our strawbale cottage. Vegetarian food, partly organic. We start with dinner on Friday at 19:30, finish with lunch at noon Sunday. Price: 2500 kc. Possibility for work-exchange exists.

Contact max@permalot.org for registration.

Contact max@permalot.org for registration to weekend workshop

This is an English language event. Přednáška bude vedena v anglickém jazyce.
